**GABRIELLO • CHANNIA • EDIMER • SANTO**

**McNAUL & WATKINS**

The image is a vibrant collage of action shots from a summer 2001 product catalog. It features a variety of skateboarders in mid-air, performing tricks on ramps, ledges, and even a swimming pool. The background includes cityscapes, modern buildings, and architectural details like railings and stairs. The overall aesthetic is energetic and captures the spirit of urban youth culture.

# BONES® BEARINGS

## Bones Swiss Ceramics

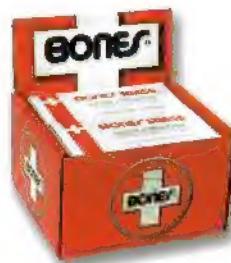

The fastest skateboard bearings you can buy. A winning combination of precision ground and polished Swiss bearing races, glass fiber reinforced Nylon® high speed ball retainer, Cerbec® silicone nitride ceramic ball bearings, Speed Cream™ low viscosity synthetic bearing lubricant, and a non-contact black rubber shield. Ceramic balls reduce weight, last longer, accelerate faster and roll smoother, with less friction than polished steel ball bearings, giving you the absolute fastest, longest lasting skate bearings available at a break through price (for ceramics). If you need the very best, this is it.

Bones Swiss 8-pack

## Original Bones Swiss

Legendary Bones Swiss bearings have been the industry standard ever since they were introduced in 1983. Fast, smooth, and long lasting, these bearings have become the choice of most professional skaters, and remain unequaled in their class. Bones Swiss feature the same ultra high performance components used in Bones Swiss Ceramics, except that the balls are chromium steel instead of silicone nitride. Bones Swiss have earned their fame through years of proven, dependable performance for the best skaters in the world. No hype, just the best...ask anyone who has been skating for a few years.

Bones REDS 8-pack

## Bones REDS

Bones Reds are the best popularly priced bearings you can buy. Reds were developed to be an affordable alternative to Bones Swiss and feature ground and superfinished chromium steel balls and races, a high speed Nylon ball retainer, Speed Cream lubricant and a non-contact red rubber shield. This combination of quality components and careful quality control make them faster, smoother, and longer lasting than any other bearing in their price range, so let the good times roll.

### Speed Cream

Speed Cream R.F. - is a high temperature, low viscosity synthetic skate lubricant specially formulated by Bones to reduce friction, and provide a durable micro film of lubricant to protect against corrosion. Speed Cream R.F. makes your bearings faster and is very long lasting.
